## Susan Collins

**Personal Management Consultant**
**Professional Dowser**
The Canadian Society of Dowsers
Past President, Dowser of the Year

Susan Collins is an internationally acclaimed Keynote Speaker and workshop leader with a dynamic, professional practice. She uses traditional dowsing tools as well as the power of heart, thought and gut to detect and transform nonbeneficial Earth, Environmental, Psychic and Other energy patterns. Susan used dowsing to get past a chronic health crisis and is committed to sharing techniques she learned from her many teachers. She is a full-time Personal Management Consultant and Professional Dowser and is the author of a successful series of books on dowsing techniques available through her website and on Amazon.

She has led workshops and presented at conferences in-person across North America, the UK, in Italy, Japan and in the Middle East. She was featured in "The Resonance", a documentary movie on Extraterrestrials.

She is a Past President and Dowser of the Year of the Canadian Society of Dowsers . She is an ordained Metaphysical Minister.

As a speaker, she has shared the stage with Raymon Grace, White Eagle, Joey Korn, Donna Eden, David Feinstein, Bradley Nelson, Lynne McTaggart, Gregg Braden, Grahame Gardner, Christian Kyriacou, Grahame Hancock, Stephan Schwartz and the leading dowsers of her generation, including the late Ivan McBeth, Manyhorses, Walt Woods, Harold McCoy, Slim Spurling, Joe Smith, Gary Skillen and Bruce Magill. She is the founding partner of International Dowsers, offering dowsing services globally.

Her strong business background helped Susan develop her consulting practice. She describes her career: *"I was hired by a prototype internet company in the 1970s to manage the design and development of on-line applications. I managed a variety of graphics, marketing and sales teams and was responsible for introducing a variety of new telecommunications products in Canada as well as supporting sister start-up operations in the United States. Now I combine the management skills developed in my corporate career with the intuitive skills homed in my energy practice to provide integrated consulting services to assist people and businesses in ways that traditional consulting methods do not provide. The proof of the effectiveness of this approach is in the results that clients experience."* ***Testimonials***
